Happy New Year!

As we begin 2018, I am reminded that for me, this is at least the 71st President's Message that I have written. I have climbed the loftiest heights and walked into the deepest valleys, in search of suitable topics to present here. I have extolled the virtues of the club and its members, memorialized some who have passed on, praised our hobby, and offered humor wit and wisdom to the fullest extent of my capabilities. I am running out of topics.

I gave serious thought to having a ghost writer, but realized that if these messages had no spelling error, typos, run on sentences, or overabundance of commas, it would be obvious that I had not written them. So what to write for this New Year?

Simple! I am very grateful for all of the friendships and support that LIMARC and its members have given me through the years, and I look forward to a great year with all of you.

Best wishes for a happy and healthy 2018!

EDITOR'S NOTE: Recently the anniversary of December 7th 1941 passed. Andrew W2NKC sent me this article after the December newsletter was released and wondered would I publish again for a new audience.

I told Andrew it was an honor to republish.

I would like to personally thank all those who served at anytime in the military for their sacrifice and service.

Pearl Harbor Memorial

Soon will be the anniversary of that December 7, 1941 " date which will live in infamy" (President Franklin D. Roosevelt). On that day Japanese forces conducted a surprise attack on Pearl Harbor in Hawaii. It will be interesting to hear and see how many radio and TV outlets give more or less attention to this event. Admittedly, 76 years since the occurrence is a long time to remember, even by those who lived through the experience. But to some of us still alive, the ensuing results of this event brought us into World War 2, which resulted in the death and maiming of so many and changed the lives of all. It reportedly produced what became known as "The Greatest Generation", publicized by writer and newscaster Tom Brokaw.

Years after a personal or world event some people say that not only do they remember the event but they can describe exactly what they were doing at the time the event occurred or when they first learnt about it. As examples, many recall their activities when the TV coverage or word of the fatal shooting of President John Kennedy became known and/or the TV views and coverage of the devastation on 9/11. In time I expect these too will be forgotten. I remember what I was doing on Sunday, December 7, 1941, Pearl Harbor Day:

On Sunday afternoon of December 7, 1941, I was in my Ham Radio Shack (bed room) in The Bronx copying code for practice from what I believe was being transmitted by Associated Press and/or United Press from MacKay Radio on Long Island. Heard was a message which was repeated over and over again stating: "PEARL HARBOR BOMBED THIS IS NO PRACTICE RAID". At the time I did not know where Pearl Harbor was, or the significance of the message, so I put the kitchen radio on radio station WNEW where Martin Block's Make Believe Ball Room was being broadcast, waiting for the half hourly news break. Shortly after, either Martin Block or another announcer interrupted the music and announced that the Japanese had bombed Pearl Harbor. No details given, the music resumed either coincidentally or intentionally with Hawaii or Hawaiian in the title. By the evening little more in the way of information was provided by the radio commentators. Unlike the President Kennedy and 9/11 events which were viewed by many on TV, not too many of the public became immediately aware of what was transpiring at Pearl Harbor. I believe I was among the first non Press people in the United States to learn of this surprise attack which brought us into World War 2.

Dues Increase for 2018

Membership has approved a dues increase of \$5.00 across the board. This is the first increase in almost 10 years. In the last few years we have spent a great deal of money on upgrading equipment including the purchase of two DMR repeaters. In addition, several costs, mostly insurance, have gone up and do affect our operating budget.

The two main sources of income for the club are dues and hamfest income. Hamfest attendance is generally down, although we are fortunate in having great vendor support. However, weather conditions for the outdoor hamfest over the last two years have been generally poor, and seriously affect our income from that event. The dues increase insures our ability to meet our financial responsibilities regardless of the income from the outdoor hamfest.

We appreciate your support and understanding and remind you that the increase goes into effect January 1, 2018. Pay your dues before then and save!
